

DAN DOLAN

Dan Dolan is Vice President, Policy Research & Analysis for the Electric Power Supply Association (EPSA). Dan is responsible for coordinating research, reports, studies and analysis as well as managing state regulatory and legislative initiatives for EPSA.

EPSA is the national trade association representing competitive power suppliers, including generators and marketers. These suppliers, who account for nearly 40 percent of the installed generating capacity in the United States, provide reliable and competitively priced electricity from environmentally responsible facilities. EPSA seeks to bring the benefits of competition to all power customers.

Dolan is part of the management team that develops electricity policy for the organization and he oversees the development of state advocacy activities. Dolan also serves as the principal liaison for EPSA with state regulatory and legislative bodies as well as at a variety of academic, industry and policymaker venues.

Dolan has been with EPSA since August 2003 and holds a bachelor's degree in business management with a concentration in international business from Goucher College.
